

**SOCIAL SECURITY CORPORATION –**

**SOCIAL SECURITY INVESTMENT FUND**

**CONSOLIDATED FINANCIAL STATEMENTS**

**31 DECEMBER 2018**

**INDEPENDENT AUDITOR'S REPORT  
TO THE CHAIRMAN AND THE MEMBERS OF INVESTMENT BOARD  
SOCIAL SECURITY CORPORATION - SOCIAL SECURITY INVESTMENT FUND  
Amman- Jordan**

**Report on the audit of the consolidated financial statements**

**Opinion**

We have audited the consolidated financial statements of Social Security Investment Fund (the "Fund") and its subsidiaries (the "Group"), which comprise the consolidated statement of financial position as at 31 December 2018, and the consolidated statement of revenues and expenses, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Group as at 31 December 2018, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

**Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards, are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* (IESBA Code) together with the ethical requirements that are relevant to our audit of the consolidated financial statements in Jordan, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## **Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements**

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

## **Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exist, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

#### Report on other legal and regulatory

The Group maintains proper books of accounts, which are in agreement with the consolidated financial statements.

Amman – Jordan  
27 June 2019

**SOCIAL SECURITY CORPORATION – SOCIAL SECURITY INVESTMENT FUND**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**31 DECEMBER 2018**  
**(IN THOUSANDS OF JORDANIAN DINARS)**

---

**(1) GENERAL**

Social Security Investment Fund was established in accordance with the Social Security Fund's Investment Law No. (111) for the year 2001 and in conjunction with article (76) of the Social Security Law No. (19) for the year 2001. The date 1 January 2003 was considered the date for commencing the Fund's activities, and in accordance with the Social Security Corporation's Board of Directors Decision No. 1/2003 dated 2 January 2003, the balances of investment accounts and their other related accounts were transferred from the Social Security Corporation records to the records of the Social Security Investment Fund.

In accordance with Social Security temporary law No. (7) For the year 2010 the name of the Investment Fund was modified to become "Social Security Investment Fund" "The Fund". The Fund's registered address Abdul Rahman Arshidat St. Shmeisani, P.O.Box 850633, Amman 11185, The Hashemite Kingdom of Jordan.

The Fund's main activity is to manage the investments of the Social Security Corporation in a manner that ensures the development of its financial resources, and in order to achieve the Social Security Corporation's objectives, the Fund undertakes the following tasks:

- Establishing projects in cooperation with the public and private sectors on corporation investments.
- Underwriting purchasing and selling of bonds, bills and other securities.
- Investing in cash deposits with the banking system with appropriate returns.
- Contributing in mutual funds.
- Contributing in the financing of national projects of economic feasibility by providing long-term loans and against appropriate guarantees.
- Purchase, sale and development of properties for the purpose of acquisition, participation, investment or trading.
- Carry out any investment activities approved by the Investment Board and approved by the Board of Directors of the Social Security Corporation.
- Conducting economic feasibility studies for the projects it intends to invest in, and in this field, to use the role of experts and specialists.
- Follow-up on the performance of the institutions in which the corporation contributes, and report on the performance of these companies, along with recommendations to the Board of Investment.

The consolidated financial statements of the Social Security Investment Fund for the year 2018 have been approved by the Board of Investment on its meeting held on 27 June 2019.

**(2) ACCOUNTING POLICIES**

**(2-1) BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS**

The consolidated financial statements are prepared in accordance with the International Financial Reporting Standards (IFRS). Issued by the International Accounting Standards Board (IASB).

The consolidated financial statements have been prepared in accordance with historical cost convention, except for the financial assets at fair value through the statement of revenues and expenses, financial assets at fair value through other comprehensive income and investment properties which have been measured at fair value at the date of these consolidated financial statements.

The consolidated financial statements have been presented in Jordanian Dinars "JD" which is the functional currency of the Group.

**SOCIAL SECURITY CORPORATION – SOCIAL SECURITY INVESTMENT FUND**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**31 DECEMBER 2018**  
**(IN THOUSANDS OF JORDANIAN DINARS)**

**(2-2) BASIS OF CONSOLIDATION**

The consolidated financial statements comprise the financial statements of the Social Security Investment Fund and the financial statements of its subsidiaries ("the Group") as at 31 December 2018. Following are the subsidiaries that have been included in the consolidated financial statements:

	<u>Sector</u>	<u>Paid in capital</u>		<u>Percentage of Ownership</u>	
		2018	2017	2018	2017
				%	%
Jordan Press Foundation PLC/Al-Rai	Press and publication	10,000,000	10,000,000	54.93	54.93
Jordan Duty Free PLC	Trading	22,500,000	7,500,000	57.09	57.09
Al-Daman for Investment PLC	Investment and leasing	10,000,000	10,000,000	61.4	61.4
Rama for Investments and saving LLC	Investment	560,000	560,000	100	100
National Company for Touristic Development LLC	Tourism	2,050,000	2,050,000	100	100

- Crowne Plaza Hotel - Amman
- Crowne Plaza Hotel Petra and its Rest House
- Intercontinental Hotel - Aqaba
- Amman Cham Palace Hotel – Amman\*
- Holiday Inn Hotel – Dead Sea
- Crowne Plaza Resort – Dead Sea

\*The consolidated financial statements of the Fund include the financial statements of Amman Cham Palace Hotel for the year 2017. The Hotel's financial statements for the year 2018 have not been consolidated as they are not available.

The financial statements of the Fund and its subsidiaries are prepared using the same accounting period as the Funds and using the same accounting policies, except for the following:

- Investment properties for AI - Daman for Investments are presented at cost. However, they are presented at fair value in the consolidated financial statements and proper reconciliations are prepared in the Fund's consolidated statements.

Control is achieved when the Group is exposed, or has the rights, to variable returns from its involvement with the subsidiaries, and has the ability to affect those returns through its power over the investee. Control over the investee is exercised when the following factors exist:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee).
- Exposure, or rights, to variable returns from its involvement with the investee.
- The ability to use its power over the investee to affect its returns.

When the Group owns less than a majority of the voting rights in an investee, in this case, the Group considers all factors and circumstances to determine whether it has control over the investee, which include the following:

- Contractual agreements with shareholders that have voting rights in the investee
- Rights resulting from other contractual arrangements
- The Group's voting rights and potential voting rights

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group obtains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of OCI are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full.

**SOCIAL SECURITY CORPORATION – SOCIAL SECURITY INVESTMENT FUND**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**31 DECEMBER 2018**

**(IN THOUSANDS OF JORDANIAN DINARS)**

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognises the assets (including goodwill) and liabilities of subsidiary.
- Derecognises the carrying amount of any non-controlling interest.
- Derecognises the cumulative translation differences recorded in equity.
- Recognises the fair value of the consideration received.
- Recognises the fair value of any investment retained by subsidiary.
- Recognises any gains or losses as a result of losing control.
- Reclassifies the Group's share of components previously recognised in OCI to profit or loss.

**(2-3) CHANGES IN ACCOUNTING POLICIES**

The accounting policies adopted in the preparation of the consolidated financial statements are consistent with those adopted for the year ended 31 December 2017, except for the adoption of new standards and amendments effective as of 1 January 2018:

**IFRS 9 Financial Instruments**

The Group implemented IFRS (9) (2014) financial instruments on 1 January 2018, "the date of mandatory implementation" where at that date the Group had evaluated the requirements of expected credit losses, hedge accounting and amendments related classification and measurement of financial instruments.

The Group implemented IFRS (9) retrospectively, and it has not restated comparative figures. The implementation impact of IFRS (9) was recognized through the cumulative surplus of revenues over accumulated losses on 1 January 2018.

IFRS 9 (financial instruments) replaces incurred credit losses module in accordance with IAS 39 (financial instruments: measurement and reclassification), and it included an inclusive module for the mechanism of recognizing and recording expected credit losses, the frame of hedge accounting, in addition to the requirements for classification and measurement.

The standard included a business module for debt instruments, loans, financial commitments, financial insurance contracts, deposits, accounts receivable, but it is not implemented on equity instruments.

The modified version of IFRS (9) (financial instruments) includes a classification mechanism for assets and liabilities.

IFRS (9) requires all financial assets to be classified in accordance with the institution's business module related to financial assets management and the properties of contractual cash flows of financial assets. The Group has evaluated the implementation impact of IFRS (9) on the classification and measurement of financial assets and liabilities and evaluation of the Group's financial assets and liabilities on the date of mandatory implementation which is 1 January 2018.

**SOCIAL SECURITY CORPORATION – SOCIAL SECURITY INVESTMENT FUND**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**31 DECEMBER 2018**  
**(IN THOUSANDS OF JORDANIAN DINARS)**

There is not material difference in the classification of financial assets and liabilities as a result of the implementation of IFRS (9).

The impact of this change in accounting policies on the consolidated financial statements of the Fund as at 1 January 2018 has been to decrease shareholders' equity by JD 29,651 thousand as follows:

<b>Effect of implementing the new expected credit loss model:</b>	<b>Thousands of Jordanian Dinars</b>
Deposits at banks and financial institutions	4,932
Loans and granted debits	5,662
Financial assets at amortized cost	8,828
Other assets	(260)
	<u>19,162</u>
Group's share of IFRS (9) implementation impact on associates (note 8)	10,489
<b>Total</b>	<u><u>29,651</u></u>

The implementation impact of IFRS (9) on opening balance is as follows:

<b>Item</b>	<b>Balance as of 31 December 2017</b>	<b>Expected Credit Losses *</b>	<b>Balance as of 1 January 2018 after effect of IFRS (9) adoption</b>
Deposits at banks and financial institutions	1,034,103	(4,932)	1,029,171
Loans and granted debts	144,333	(5,662)	138,671
Financial assets at amortized cost	4,969,768	(8,828)	4,960,940
Other assets	403,566	260	403,826
Investments in association	490,641	(10,489)	480,152
<b>Total</b>	<u><u>7,042,411</u></u>	<u><u>(29,651)</u></u>	<u><u>7,012,760</u></u>

**SOCIAL SECURITY CORPORATION – SOCIAL SECURITY INVESTMENT FUND**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**31 DECEMBER 2018**  
**(IN THOUSANDS OF JORDANIAN DINARS)**

The beginning balance for the provisions amount after the effect of IFRS (9) adoption:

Item	Current provision amount as of 31 December 2017	Differences resulting from recalculation	Balance in accordance with IFRS (9)
Deposits at banks and financial institutions	-	(4,932)	(4,932)
Loans and granted debts	(2,168)	(5,662)	(7,830)
Financial assets at amortized cost	(567)	(8,828)	(9,395)
Other assets	(20,875)	260	(20,615)

Expected credit losses for the year subsequent to 1 January 2018 per stage is as follows:

Item	Stage 1	Stage 2	Stage 3	Total
Deposits at banks and financial institutions	(4,932)	-	-	(4,932)
Loans and granted debts	(7,830)	-	-	(7,830)
Financial assets at amortized cost	(9,395)	-	-	(9,395)
Other assets	(20,615)	-	-	(20,615)

Expected credit losses for the year subsequent to 31 December 2018 per stage is as follows:

Item	Stage 1	Stage 2	Stage 3	Total
Deposits at banks and financial institutions	(7,686)	-	-	(7,686)
Loans and granted debts	(7,589)	-	-	(7,589)
Financial assets at amortized cost	(13,505)	-	-	(13,505)
Other assets	(25,451)	-	-	(25,451)

### **IFRS 15 Revenue from Contracts with Customers**

IFRS 15 supersedes IAS 11 Construction Contracts, IAS 18 Revenue and related Interpretations and it applies to all revenue arising from contracts with customers, unless those contracts are in the scope of other standards. The new standard establishes a five-step model to account for revenue arising from contracts with customers. Under IFRS 15, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

The standard requires entities to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The standard also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract.

The Fund assessed that the impact of IFRS 15 is not material on its consolidated financial statements.

#### **IFRIC Interpretation 22 Foreign Currency Transactions and Advance Considerations**

The Interpretation clarifies that, in determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which an entity initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, then the entity must determine a date of the transactions for each payment or receipt of advance consideration.

This Interpretation does not have any impact on the Fund's consolidated financial statements.

#### **Amendments to IAS 40 Transfers of Investment Property**

The amendments clarify when an entity should transfer property, including property under construction or development into, or out of investment property. The amendments state that a change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use. A mere change in management's intentions for the use of a property does not provide evidence of a change in use.

These amendments do not have any impact on the Fund's consolidated financial statements.

#### **Amendments to IFRS 2 Classification and Measurement of Share-based Payment Transactions**

The IASB issued amendments to IFRS 2 Share-based Payment that address three main areas: the effects of vesting conditions on the measurement of a cash-settled share-based payment transaction; the classification of a share-based payment transaction with net settlement features for withholding tax obligations; and accounting where a modification to the terms and conditions of a share-based payment transaction changes its classification from cash settled to equity settled. On adoption, entities are required to apply the amendments without restating prior periods, but retrospective application is permitted if elected for all three amendments and other criteria are met.

These amendments do not have any impact on the Fund's consolidated financial statements.

#### **Amendments to IFRS 10 and IAS 28: Sale or Contribution of Assets between an Investor and Its Associate or Joint Venture**

The amendments address the conflict between IFRS 10 and IAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that the gain or loss resulting from the sale or contribution of assets that constitute a business, as defined in IFRS 3, between an investor and its associate or joint venture, is recognised in full. Any gain or loss resulting from the sale or contribution of assets that do not constitute a business, however, is recognised only to the extent of unrelated investors' interests in the associate or joint venture.

These amendments do not have any impact on the Fund's consolidated financial statements.

**SOCIAL SECURITY CORPORATION – SOCIAL SECURITY INVESTMENT FUND**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**31 DECEMBER 2018**  
**(IN THOUSANDS OF JORDANIAN DINARS)**

---

**(2-4) SIGNIFICANT ACCOUNTING POLICIES**

**Financial assets at amortized cost**

Financial assets that the Group's management aims, according to its business model to hold the assets to collect their contractual cash flows and that the contractual terms of the financial asset give rise, on specified dates, to cash flows constituting solely principal and interest on the outstanding principal amounts.

Debt instruments meeting these criteria are initially measured at amortized cost plus transaction costs. Subsequently they are amortized using the effective interest rate method less allowance for impairment. The losses arising from impairment are recognized in the consolidated statement of revenues and expenses.

The amount of the impairment consists of the difference between the book value and present value of the expected future cash flows discounted at the original effective interest rate.

No assets may be reclassified from/to this item except in the cases specified in IFRS and, (if any such asset is sold before its maturity date, the result of the sale is recognized in the consolidated statement of revenues and expenses in a separate line and disclosed in accordance with the requirements of International Financial Reporting Standards In particular).

**Financial assets at fair value through the statement of revenues and expenses**

These assets represent investments in the Companies' shares for trading purposes and are intended to generate profits from fluctuations in short-term market prices or trading profit margins.

Financial assets at fair value through revenues and expenses are initially measured at fair value, subsequently, these assets are revalued at fair value. Gains or losses arising on subsequent measurement of these financial assets including the change in fair value arising from non-monetary assets in foreign currencies are recognized in the consolidated statement of revenues and expenses. When these assets or portion of these assets are sold, the gain or loss arising is recorded in the consolidated statement of revenues and expenses.

Dividend and interest income are recorded in the consolidated statement of revenues and expenses.

**Financial assets at fair value through other comprehensive income**

These assets represent investments in equity instruments for the purpose of retention over the long-term.

These financial instruments are initially measured at their fair value plus transaction costs. Subsequently, they are measured at fair value. Gains or losses arising on subsequent measurement of these equity investments including the change in fair value arising from non-monetary assets in foreign currencies are recognized in the consolidated statement of comprehensive income. In case of sale of such asset or part of it, the gain or loss is recorded in the consolidated statement of comprehensive income and in the consolidated statement of changes in equity and the valuation reserve balance for sold assets will be transferred directly to retained earnings and not through the consolidated statement of profit or loss.

It is not permitted to reclassify assets to/from this item except in certain circumstances determined in IFRS.

These financial assets are not subject to impairment testing.

Dividend income is recognized in the consolidated statement of revenues and expenses.

**SOCIAL SECURITY CORPORATION – SOCIAL SECURITY INVESTMENT FUND**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**31 DECEMBER 2018**  
**(IN THOUSANDS OF JORDANIAN DINARS)**

---

**Loans and granted debts**

A provision for expected credit losses for loans and granted debts is recognized through reaching an estimation for the probability of default and the percentage of loss assuming default.

The Group relies on several main economic indicators in building a number of assumptions, mainly GDP growth indicators, the financial market index and debit indicators in addition to the classification issued by the credit rating institution and according to the statistical data of the global default rate of this classification.

**Fair value**

The Group evaluates its financial instruments such as financial assets at fair value through other comprehensive income at the date of the consolidated financial statements as disclosed in (note 37).

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place in the principal market for the asset or liability. In the absence of a principal market, most advantageous market for the asset or liability is used.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

The Group uses the following valuation methods and alternatives in measuring and recording the fair value of financial instruments:

All assets and liabilities for which fair value is measured, disclosed or deleted in the consolidated financial statements are categorised within the fair value hierarchy, described as follows. based on the lowest level input that is significant to the fair value measurement as a whole:

**SOCIAL SECURITY CORPORATION – SOCIAL SECURITY INVESTMENT FUND**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**31 DECEMBER 2018**  
**(IN THOUSANDS OF JORDANIAN DINARS)**

- Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

**Impairment of financial assets**

The Group recognizes a provision for expected credit losses for all debt instruments not held at fair value, in the statement of profit or loss.

Expected credit losses rely on the difference between accrued contracted cash flows in accordance to the contract and all cash flows the Group expects to receive, discounted at the original effective interest rate.

The expected cash flows include cash flows from the sale of held collaterals or other credit enhancement that are an integral part of the contractual terms (if any).

The Group's management calculates the allowance based on its historical credit loss experience adjusted for the future factors of debtors and the economic environment.

**Property and equipment**

Property and equipment are measured at cost less accumulated depreciation and accumulated impairment in value. Depreciation is calculated using the straight-line method, (except for lands), over the estimated useful lives of property and equipment when they are ready for use, Depreciation rates used are as follows

	<u>%</u>
Buildings	2-10
Furniture and fixtures	9-25
Machinery and equipment	3-20
Vehicles	15-20
Additions and improvements	15
Computers	20-25
Electromechanical equipment	15
Sanitary extensions	15
Others	10-20

When the recoverable value of property and equipment is less than their carrying amount, assets are written down to its recoverable amount and impairment losses are recognised in the consolidated statement of revenues and expenses.

Useful lives of property and equipment are reviewed at the end of each year. If the expectations of useful lives are different from the previous estimates, the change is accounted for as changes in estimate in future periods.

### **Goodwill**

Goodwill is initially measured at cost which represents the excess of the cost of acquisition or purchase of investment in an associate or subsidiary company over the Group's share in the net fair value of the identifiable assets at the date of acquisition. Goodwill arising from the investment in subsidiaries is separately presented within intangible assets, while goodwill arising from the investment in associates is recognised within investment in associates and subsequently adjusted for any impairment losses.

Goodwill is allocated to each of the Group's cash-generating units, or groups of cash generating units for the purpose of impairment testing.

Goodwill is reviewed for impairment at the date of the consolidated of the financial statements, if events or conditions indicate that the estimated recoverable amount of a cash-generating unit or group of cash-generating units is less than their carrying amount, impairment losses are recognised in the consolidated statement of revenues and expenses.

### **Intangible assets**

Intangible assets are classified based on the assessment of their useful life to definite and indefinite. Intangible assets with definite lives are amortized over the useful economic life and amortization expenses are recognized in the consolidated statement of profit or loss, while intangible assets with indefinite useful lives are assessed for impairment at each reporting date and impairment loss is recognized in the consolidated statement of revenues and expenses. Internally generated intangible assets are not capitalized and are expensed in the consolidated statement of revenues and expenses. Indications of impairment of intangible assets are reviewed and their useful economic lives are reassessed at each reporting date. Adjustments are reflected in the subsequent periods.

### **Investments properties**

Investment properties are stated at cost including the acquisition costs and is measured subsequently at fair value which primarily reflects the conditions and market prices as of the date of the consolidated financial statements.

Gains and losses resulting from changes in the fair value of investment properties are recognised in the consolidated statement of revenues and expenses.

Investment properties are valued using assumptions that reflect market prices using the average valuation for five real estate experts after excluding the highest and lowest valuations.

### **End of service indemnity provision**

Provision for end of service indemnity is recognized when the Group is committed to providing its employees with end of service indemnities.

The Group is obligated when it has a detailed formal compensation plan and there is no real prospect of withdrawing the plan.

Provision for end of service indemnity is measured based on the Group's number of employees at the date of the consolidated financial position in accordance with the Group's internal policies and IAS (19).

### **Revenue and expense recognition**

Revenues are recognized in accordance with IFRS (15) – Five step model, which specifies the contract, price, performance obligations and recognizing revenues based on the fulfillment of performance obligations.

The Group recognizes revenue from the sale of newspapers, distribution of advertisements and commercial press revenues at a certain point in time at which the control of the asset is transferred to the customer upon the delivery of goods.

Interest income is recognized on a timely basis to reflect the return on assets.

Dividends on investment securities are recognized when approved by the General Assembly of the investee.

Revenue from the sale of energy is recognized when used by consumer and an invoice has been issued.

Hotel revenues represent revenues recognized from providing hotel rooms to customers. Hotel revenues (stay in) are recognized once the service is provided.

Food and beverage revenues represent revenues recognized from providing food and beverage to consumers through the room service department in addition to restaurants inside the hotel. Food and beverage revenues are recognized once the service is provided and an invoice is issued to the customer which usually occurs at a certain period of time.

Rent revenues represent revenues recognized through providing rental services to customers where payments from tenants are recorded as unrealized and are recognized at the start of the contract period over the life time of the contract.

### **Revenue from the Sale of goods**

The Group recognizes revenues from the sale of goods at the fair value of considerations received or to be received and when there is a reasonable possibility for collection in accordance with IFRS (15).

The Group recognizes revenues from the sale of goods at a certain point in time at the date in which control is transferred to the customer. Generally, when goods are delivered and an invoice is issued to the customer.

### **Recognition of financial assets**

Purchases and sales of financial assets are recognised at the trade date (that is the date the Group commits to purchase or sell the asset).

### **Derivative financial instruments**

Trading financial derivatives are stated at fair value (such as future interest rates, swap agreements and foreign currency option contracts) in the consolidated statement of financial position within other assets or other liabilities, fair value is measured according to the prevailing market prices, the change in their fair value is recognised in the consolidated statement of revenues and expenses.

### **Repurchase and resale agreements**

Assets sold with a corresponding commitment to repurchase them at a future date continue to be recognised in the consolidated financial statements as a result of the Group's continuous control over these assets and as the related risks and rewards are transferred to the Group upon occurrence. They also continue to be measured in accordance with the adopted accounting policies. Amounts received against these contracts are recorded within liabilities under borrowed funds. The difference between the sale price and the repurchase price is recognised as an interest expense amortized over the contract period using the effective interest rate.

Purchased assets with corresponding commitment to sell at a specific future date are not recognised in the consolidated financial statements because the Group has no control over such assets and the related risks and rewards are not transferred to the Group upon occurrence. Payments related to these contracts are recorded under deposits at banks and other financial institutions or loans and granted debts in accordance with the nature of each case. The difference between the purchase price and resale price is recorded as interest revenue amortized over the life of the contract using the effective interest rate method.

### **Investments in associates**

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee. The Group's investments in associates are accounted for using the equity method.

**SOCIAL SECURITY CORPORATION – SOCIAL SECURITY INVESTMENT FUND**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**31 DECEMBER 2018**  
**(IN THOUSANDS OF JORDANIAN DINARS)**

---

Under the equity method, investments in an associate is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate since the acquisition date. Goodwill relating to the associate is included in the carrying amount of the investment and is not tested for impairment individually. The consolidated statement of revenues and expenses reflects the Group's share of the results of operations of the associate. In addition, when there has been a change recognised directly in the equity of the associate, the Group recognises its share of any changes, when applicable, in the consolidated statement of changes in equity. Gains and losses resulting from transactions between the Group and the associate are eliminated to the extent of the interest in the associate.

### **Inventory**

Inventory is valued at the lower of cost or net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

### **Income tax**

- Income tax expense represents accrued tax and deferred tax.
- Income tax expenses are accounted for on the basis of taxable income. Taxable income differs from income declared in the consolidated financial statements as the declared income includes non-taxable revenue or not deductible expenses in the current year, but deductible in subsequent years, accumulated losses acceptable by the tax authorities, and items not accepted for tax purposes or subject to tax.
- Taxes are calculated on the basis of tax rates prescribed according to the prevailing laws, regulations and instructions of the Hashemite kingdom of Jordan. Social Security Corporation revenues are exempted from income tax by law except for rental revenues, revenue of some hotels and foreign investments revenue.
- Deferred taxes are taxes expected to be paid or recovered as a result of temporary differences in the value of assets or liabilities in the consolidated financial statements and the value upon which taxable income is calculated. Deferred taxes are provided using the liability method on the consolidated financial statements and are calculated based on the tax rates expected to be implemented upon the settlement of a tax commitment or upon the realization of tax asset.
- Deferred tax assets and liabilities are reviewed as of the date of the consolidated financial statements, and reduced in case it is expected that no benefit will arise therefrom, partially or totally.

### **Cash and cash equivalents**

Cash and cash equivalents comprise cash on hand, balances with the Central Bank of Jordan and balances with banks and financial institutions maturing within three months net of bank overdrafts.

### **Subscribers' contributions assets and liabilities**

These assets are stated separately based on the Energy and Mineral Regulatory Commission regulations within non-current assets under subscribers contributions assets, with a similar contra liability account under subscribers contributions liabilities with the same amount.

Amortization of these assets is calculated on a straight line basis at an annual rate of 4% along with the amortization of subscriber's contributions liabilities. The amortization of assets and liabilities of subscribers' contributions is offset, and accordingly has no impact on the consolidated statement of revenues and expenses.

**SOCIAL SECURITY CORPORATION – SOCIAL SECURITY INVESTMENT FUND**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**31 DECEMBER 2018**  
**(IN THOUSANDS OF JORDANIAN DINARS)**

---

**Rural files assets**

This term represents the infrastructure assets used to connect the electricity company to rural areas. It is recorded under non-current asset as "Rural files assets", and is offset with a liability under the term "Rural files liabilities" carrying the same amount, and that is to conform with the legislations. Depreciation and amortization of those assets and liabilities is calculated on a straight-line basis at annual rate of 4%. The depreciation and amortization of assets and liabilities of rural files are offset, and accordingly has no impact on the consolidated statement of revenues and expenses.

**Investments in joint operations**

Joint operations are a contractual agreement between the Fund and other parties in jointly controlled economic activities where financial, operational and strategic policy decisions on project activities require the unanimous approval of the parties involved in the control.

Assets, liabilities, revenues and expenses related to joint operations are recognized by the Group according to the percentage of ownership.

**Offsetting**

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated statement of financial position if there is a current enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

**Foreign currency**

Transactions in foreign currencies during the year are recorded at the exchange rates prevailing at the date of the transaction.

Financial assets and financial liabilities denominated in foreign currencies are translated at the average rates prevailing on the date of the consolidated statement of financial position as declared by the Central Bank of Jordan.

Gains or losses resulting from foreign currency translation are recognized in the consolidated statement of revenues and expenses.

Translation differences for non-monetary assets and liabilities denominated in foreign currencies (such as financial assets at fair value through the statement of profit or loss) are recorded as part of the change in fair value.

**(2-5) SIGNIFICANT ACCOUNTING ESTIMATES AND ASSUMPTIONS**

The preparation of the consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of financial assets and liabilities and the disclosure of contingent liabilities. These estimates and assumptions also affect the revenues and expenses, In particular, considerable judgment by management is required in the estimation of the amount and timing of future cash flows when determining the level of provisions required. Such estimates are necessarily based on assumptions about several factors involving varying degrees of judgment and uncertainty and actual results may differ resulting in future changes in such provisions.

**SOCIAL SECURITY CORPORATION – SOCIAL SECURITY INVESTMENT FUND**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**31 DECEMBER 2018**  
**(IN THOUSANDS OF JORDANIAN DINARS)**

---

Management has made some judgements in applying the Group's accounting policies. Judgments made by management that have the greatest impact on amounts recognized in the financial statements are disclosed in the relevant notes to the consolidated financial statements.

Key assumptions relating to future key and other sources of estimation at the date of the consolidated financial statements that may pose significant risk of material changes in the carrying amount of assets and liabilities during the next financial year are also disclosed in the relevant notes to the consolidated financial statements.

The Group included its assumptions and estimates in preparing the consolidated financial statements. However, current conditions and estimates related to further developments may change as a result of market changes or circumstances that may arise outside the Group's control. The Group reflects these changes to assumptions once they occur.

Reasonable judgments used in the preparation of the consolidated financial statements are detailed as follows:

- Impairment of investment properties is recorded based on recent valuations approved by the accredited sources for impairment testing purposes and are reviewed periodically.
- Fiscal year is charged with its related income tax expense in accordance with laws, regulations and accounting standards.
- Management periodically reviews the useful lives of property and equipment for the purpose of annual depreciation calculation based on the general state of those assets and expected future useful lives, impairment losses are recorded in the consolidated statement of revenues and expenses.
- A provision recognized for lawsuits raised against the Group based on a legal study prepared by Group's legal counsel and legal advisors upon which future probable risks are determined, those studies are reviewed periodically.
- Management periodically reviews financial assets stated at cost to evaluate any impairment in value, this impairment is recorded in the consolidated statement of profit or loss.

- Fair value levels:

The level of the fair value hierarchy in which fair value measurements are categorized is determined and disclosed, and fair value measurements are separated to the stages specified in IFRS. The difference between stage (2) and stage (3) for fair value measurements is an assessment of whether information or inputs are observed and the extent of information that is not observable, which requires careful judgment and analysis of inputs used to measure fair value including consideration of all factors that concern the asset or obligation.

- Provision for expected credit losses:

The determination of a provision for impairment of financial assets requires Group management to make significant judgment to estimate the amounts and timing of future cash flows, as well as to estimate any significant increase in the credit risk of financial assets after initial recognition, and to take into account further measurement information for expected credit losses.

The Group determined the value of the provision for impairment of financial assets in accordance with international financial reporting standards. The Group's policy is to determine common elements on which credit risk and expected credit losses are measured on a collective basis or an individual basis.

Methodology of application of IFRS (9) (Financial instruments): inputs, mechanisms and assumptions used to calculate expected credit losses.

Key concepts that have a material impact and require a high degree of management judgment and which have been considered by the Group when applying the standard include the following:

- **Assessment of significant increase in credit risk:**

An assessment is made as to whether there has been a significant increase in credit risk since inception, The Group compares the risk of default to the financial instrument at the end of each financial period with the risk of default when the financial instrument arises using key concepts of the Funds' risk management processes.

The significant increase in credit risk is assessed annually and separately for each exposure to credit risk based on three factors. If one of these factors indicates a significant increase in credit risk, the financial instrument is reclassified from stage 1 to stage 2:

- 1- We have set limits to measure the significant increase in credit risk based on the change in the risk of default of the financial instrument as compared its date of inception.
- 2- Any reschedules or adjustments made to customer accounts during the evaluation period shall be recognized as an indication of significant increase in credit risk.
- 3- IFRS (9) (financial instruments) includes an assumption that there is a significant increase in the credit risk of financial instruments that have been impaired and have been recognized for more than 30 days. A substantial increase in the credit risk of financial instruments that have defaulted and matured for over 60 days which will be reduced to 30 days within 3 years. In this respect the Group adopted a 45 days period.

The change between stage 2 and stage 3 depends on whether the financial instruments are impaired at the end of the financial period. The method for determining impairment of financial instruments in accordance with IFRS 9 is similar to the method for determining the defaults of financial assets in accordance with IAS 39 (financial instruments: recognition measurement) as described in the definition of default below.

- **Macrocosmic factors, expected future events and the use of more than one scenario**

Historical information, current conditions and expected future events should be considered based on reliable information when measuring expected credit losses for each stage.

The measurement and application of expected future information requires the Group's management to make substantial efforts based on cooperation with international entities with expertise in this area.

Probability of default, loss ratio assuming default, impact upon default and inputs used in stage 1 and stage 2 of the credit facility impairment are designed based on variable economic factors (or factors related to changes in macroeconomic) that are directly related to the credit risk associated with the portfolio.

**SOCIAL SECURITY CORPORATION – SOCIAL SECURITY INVESTMENT FUND**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**31 DECEMBER 2018**  
**(IN THOUSANDS OF JORDANIAN DINARS)**

---

Each macroeconomic scenario used to calculate the expected credit loss is linked to changing macroeconomic factors.

In our estimates used to calculate expected credit losses for stages 1 and 2 discounted weighted scenarios that include future macroeconomic information for the subsequent three years.

The base line scenario is based on macroeconomic forecasts (i.e. GDP, inflation, and interest rates). The ups and downs of economic factors will be developed on the basis of possible alternative economic conditions.

- **Definition of stumbling**

The definition of default used to measure expected credit losses and in the assessment of change between stages is consistent with the concept of default used by the Group's internal credit risk management. The default is not defined in the standard, and there is a presumption that default occurs when the payment is ceased for 90 days or more.

- **Expected life**

When measuring expected credit losses, the Group considers the maximum extent of expected cash flows that the Group considers to be at risk of impairment. All contractual obligations for life expectancy including prepayment options and extension options of some revolving credit facilities with no fixed repayment date is measured based on the Group's exposure to credit risk that management can not avoid.

- **Scope of application**

All financial assets of the Group which fall within the scope of IFRS (9) are measured as follows:

- Monetary market instruments include current accounts, deposits at banks, deposits against pledged bonds and swap contracts.
- Bonds include Jordanian treasury bonds, Government bonds denominated in US dollars. Public institution bonds and private companies bonds and debts.
- Loans including those guaranteed by the Jordanian government, legal guarantees, other loans and subsidiaries payables.
- Others

- **Hypotheses and methodology of work**

Each of the above investments instruments, which is subject to the scope of IFRS 9, has been examined to determine the probability of default and the loss ratios assuming default. A number of key economic indicators have been based on the construction of a number of assumptions, most importantly GDP growth indicators, the index of the financial market, indicators of public debt of the country, in addition to the sovereign classification of Jordan issued by credit rating institutions and according to the statistical data of the cumulative global default rates of the classification.

A number of scenarios have been assumed for the purpose of calculating the probability default, using available data on companies either from the outside or within the investment fund, in addition to using the self- assessment system for the classification of companies and banks approved within the Investment Fund.

**SOCIAL SECURITY CORPORATION – SOCIAL SECURITY INVESTMENT FUND**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**31 DECEMBER 2018**  
(In THOUSANDS OF JORDANIAN DINARS)

**Governance for the application of IFRS 9 requirements:**

In order to insure compliance with the requirements of IFRS 9 and to insure that the application is in progress, a clear methodology has been developed within the Group through the relevant departments to determine assumptions to be used to when determining the probability of default and loss ratio assuming default in accordance with the requirements of the standard.

The Group also presented the methodology used for expected credit losses to upper management, the Investment Board and Board of Directors of the Corporation through committees emerging from those Boards.

**(3) CASH AND BANK BALANCES**

This item consists of the following:

	<u>2018</u>	<u>2017</u>
Cash on hand	1,060	380
Current accounts and deposits on demand *	<u>13,622</u>	<u>16,320</u>
	<u>14,682</u>	<u>16,700</u>

\* This item includes the amount of JD 204 thousand of current accounts related to the Unemployment Fund as at 31 December 2018 (31 December 2017: JD 8 thousand).

- Current accounts do not include balances with foreign banks and financial institution as at 31 December 2018 and 2017.
- There were no restricted balances as at 31 December 2018 and 2017.

**(4) DEPOSITS AT BANKS AND FINANCIAL INSTITUTIONS**

This item consists of the following:

	<u>2018</u>	<u>2017</u>
Deposits maturing within 3 months or less	765,882	637,294
Deposits maturing within 3 to 6 months	565,383	385,109
Deposits maturing within 6 to 12 months	<u>129,275</u>	<u>11,700</u>
	1,460,540	1,034,103
Less: provision for expected credit losses*	<u>(7,686)</u>	<u>-</u>
	<u>1,452,854</u>	<u>1,034,103</u>

- Interest rates on Jordanian Dinar deposits range between 2.75% to 6.25% for the year ended at 31 December 2018 and from 2.75% to 5.5% for the year ended 31 at December 2017.
- There are no balances with foreign banks and financial institutions and there are no restricted balances as at 31 December 2018 and 2017.

**SOCIAL SECURITY CORPORATION – SOCIAL SECURITY INVESTMENT FUND**

**(11) PROJECTS IN PROGRESS**

This item consists of the following:

	<u>2018</u>	<u>2017</u>
Al-Mafraq project's land infrastructure cost*	29,211	27,588
Electricity connection projects **	29,104	21,018
Crowne Plaza Hotel – Dead Sea	1,081	964
Amra Crowne Plaza renovation – Amman	258	607
Crowne Plaza Resort renovation – Petra	798	952
Intercontinental Hotel renovation – Aqaba	529	362
Development of duty free stores***	3,322	1,149
Aqaba Touristic Beach project****	32,123	32,123
Infrastructure costs for Irbid projects*****	2,251	3,299
Amman Al-Sham	24	268
Other projects in progress	<u>1,217</u>	<u>5,925</u>
	<u>99,918</u>	<u>94,255</u>

\* The Company has updated the estimated cost estimate for completion of the project by an engineering company on February 5, 2018. The total cost expected to complete the Mafraq project is approximately JD 143 million (2017: JD 180 million). The estimated cost per square meter developer is 78/12 dinar after the distribution of the estimated cost on the net land area 11.3 square kilometers. Construction is expected to be completed in 2030. The management believes that this estimate is reasonable and reflects the prices and the development cost of infrastructure for the years 2018 to 2019.

\*\* This item represents the infrastructure projects for the delivery of electricity, which are in progress as at 31 December 2018. The cost of completion of the unfinished part of the projects under progress is estimated at JD 25,676 thousand as at 31 December 2018 (2017: 22,988).

\*\*\* The total cost of completing the projects as of December 31, 2018 is estimated at approximately JD 14,485 thousand. These projects are expected to be completed during the year 2019.

\*\*\*\* Estimated cost of completion of this project amounts to JD 32,123 thousand, which represents the value of the beach tourism project, the Board of Investment decided to operate the beach by one of the global management companies in 2018 and is expected to be capitalized by the fund during the year 2019.

\*\*\*\*\* The Company contracted with a consultation company to study the volume of demand and study the market after the Government returned those lands to the Company and the tender for the preparation of the new master plan for the North Development Company project has been submitted to specialized engineering office and is expected to be completed during the year 2019. estimated cost of infrastructure is about JD 68 million as of 31 December 2018 and is expected to be completed in 2046, based on the study provided by the consulting company.

\* This item represents the total amount paid by Jordan Duty Free Company (a subsidiary) to the General Treasury in return for granting it the exclusive right to set up duty free markets at land crossings and seaports for a period of 10 years starting from 30 August 2001. The Company shall pay 8% of its total sales as a service allowance for the General Treasury. During the year 2009, the Company extended the right to exclusivity agreement for an additional 10 years from 31 August 2011 to 30 August 2021 in return for a payment of JD 4,000,000 and the obligation to pay 9% of the total monthly sales of the Free Zones Corporation at the period of extension of the agreement except for sales of the Special Economic Zone Market subject to the Aqaba Special Economic Zone Law. As of January 1, 2017, the Company is committed to pay 10.5% of the total monthly sales of the Free Zones Corporation.

\*\* The license item includes an amount of JD 39,397 thousand, representing the fair value of the electricity distribution licenses granted by the Energy and Minerals Regulatory Authority to the subsidiaries as at the date of the grants, which is amortized over the life of the license, which is 19 years.

**SOCIAL SECURITY CORPORATION – SOCIAL SECURITY INVESTMENT FUND**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**31 DECEMBER 2018**

---

**(In Thousands of Jordanian Dinars)**

\*\*\* This item represents the amount of compensations paid by the Group to landowners for damages caused by the passage of power lines over their property based on the court's decision or the decline in the market value of such property. From the beginning of 2014, the Group began to extinguish the right of passage over the life of the remaining license.

\*\*\*\* This item represents the amount of payments made by the United Travelling Center Company LCC (a subsidiary) for the construction and development of the United Traveling Complex start-up infrastructure as intangible assets in accordance with IFRIC 12 Service Concession Arrangements, accordingly amounts paid represent the right (license) to use and operate a public facility for 20 years.

\*\*\*\*\* The details of this item are as follows:

- 1- Goodwill resulting from the acquisition of Electricity Distribution Company by Kingdom Electricity Company (a subsidiary of Al-Daman Company for Energy Investments) with a total amount of JD 5,271 Thousand. This Company was identified as a cash – generating unit for the purpose of Goodwill impairment testing. Where Al Daman for Energy Investment Co. performed a goodwill impairment test as at 31 December 2018 as follows:

The recoverable amount for Irbid Electricity Distribution Company was determined based on the recoverable amount of the projected cash flows using the financial budget of 2018 that was approved by the Board of Directors. Cash flows after the year 2018 was calculated using a growth rate of 5%. Management believes that the growth rate is appropriate considering the nature of the business and overall inflation in the region. The projected cash flow was discounted at a rate of 13.40% and a growth rate of 3%, no impairment losses were recognized.

Management believes that there are no predicted changes on the basic assumptions used to determine the value in use that can reduce the recoverable amount against the net book value.

- 2- Goodwill resulting from the acquisition of Al Daman for Energy Investment Private Shareholding Company (previously, Jordan Dubai for Electricity Distribution Investment Company) by the Social Security Investment Fund with a total amount of JD 22,743 Thousand in 2011, which represents the amount of revaluation difference.

The recoverable amount for Al Daman for Energy Investments was determined based on the recoverable amount for Kingdom Electricity Company (a subsidiary of Al-Daman for Energy Investments) which was calculated based on the projected cash flows. This Company was identified as a cash – generating unit for the purpose of Goodwill impairment testing. The projected cash flows were performed using a 13.85% discount rate and a growth rate of 3.3%. Based on the impairment testing results, no impairment losses were recognized as a result from the acquisition of Electricity Distribution Plc.

**Arab Bank**

This amount represents the loan amount granted to Jordan Press Foundation / Al Rai (a subsidiary) on 13 March 2015, the company obtained a loan with a ceiling of JD 3.5 million, bearing an interest rate of 8.625% and repayable over 44 monthly installments of JD 80 thousand, except for the last installment amounting to JD 60 thousand. The first installment was due on 1 April 2015. The purpose of the loan is to finance the remaining printing press complex project and support the working capital and finance other administrative expenses.

The Company signed a contract with Arab Bank on 18 June 2017 to reschedule the loan payments. Based upon this the monthly installment became JD 25 thousand and at an interest rate of 8.875% payable over 57 installments over beginning 31 December 2017. The loan's balance was JD 1,181 thousand as of 31 December 2018 (2017: JD 1,400 thousand).

**Jordan Kuwait Bank – Jordanian Dinar**

This item represents the loan amount granted to Kingdom Electricity Company for Energy Investments (a subsidiary of Al-Daman for Energy Investments Company) in May 2016 by Jordan Kuwait Bank amounting to JD 28 million with a grace period of 3 years after the first withdrawal, to finance the company's capital and operating projects.

The loan is repayable over 18 semi-annual installments with an amount of JD 1,555,555 including interest due. Interest is payable based on applicable interest rate on deposits with the Central Bank of Jordan plus a margin of a maximum rate of 2.65%, the minimum applicable interest rate is 5.3% annually.

**Housing Bank for Trade and Finance – Jordanian Dinar**

This item represents loan amount granted to Electricity Distribution Company on 24 November 2016 from the Housing Bank for Trade and Finance with an amount of JD 40 million, with a grace period of one year, bearing an interest rates ranging between 5% to 5.4% or the rate granted to the bank's top customers less 3% whichever is lower for the first five years of the loan life, and starting from the sixth year of the loan life till the maturity date, with an interest rate as the granted rate to the bank's top customers less 3% with a minimum rate of 5.25% annually. The loan is repayable over 20 equal semi-annual installments, the first installment was due on 31 December 2017, the interest is payable every six months.

**Jordan Commercial Bank**

This item represents the amount of loan granted to the Jordan Press Foundation / Al Rai (a subsidiary) on 6 March 2018 from Jordan Commercial Bank with a ceiling of JD 500 thousand and an annual interest rate of 9.5%. The loan is repayable over five yearly installments of JD 130 thousand expect for last installment which represents the remaining amount of loan. the first installment is due on 1 January 2019 and the last installment is due on 1 January 2023. The loan was used to cover employee expenses up until their end of service date. The loan balance amounted to JD 459 thousand as at 31 December 2018.

**(22) END OF SERVICE INDEMNITY PROVISION**

Movements on end of service indemnity provision were as follows:

	2018	2017
Balance at the beginning of the year	12,450	13,151
Provision for the year *	3,381	1,919
Paid during the year	(787)	(2,620)
Balance at the end of the year	<u>15,044</u>	<u>12,450</u>

\* AL-Daman for Energy Investments (subsidiary) capitalized an amount of JD 668 thousand to projects in progress as of 31 December 2018 (2017: JD 358 thousand).

The employees end of service indemnity provision during the year was distributed as follows:

	2018	2017
Expenses in the consolidated statement of revenues and expenses (note 33)	2,713	1,561
Capitalized to projects in progress	668	358
<b>Balance at the end of the year</b>	<u>3,381</u>	<u>1,919</u>

The main actuarial assumptions used in determining the value of employees' end of service indemnity provision are as follows:

	2018	2017
Deduction rate	6.6%	6.1%
Mortality rate	0.13%	0.13%
Annual increase in salaries rate	5%	5.6%
Resignation rate	7%	6.5%
The percentage of the Company's contribution to social security net of employees' end of service indemnity	9%	8%

The following table represents possible changes in the current value of the end of service indemnity as at 31 December driven by the change in deduction, salary increase and resignation rates by 1%:

Increase by a rate of 1% in	Impact on the current value of employees' end of service indemnity provision	
	2018	2017
Deduction	(3,014)	(2,956)
Salaries	3,871	3,958
Resignations	(10,782)	10,828

**SOCIAL SECURITY CORPORATION – SOCIAL SECURITY INVESTMENT FUND**

**(37) FAIR VALUES OF FINANCIAL INSTRUMENTS**

Financial instruments comprise financial assets and financial liabilities.

Financial assets consist of cash and bank balances, deposits at banks and financial institutions, financial assets at fair value through the statement of revenues and expenses, loans and granted debts, financial assets at fair value through other comprehensive income, investments in associates, financial assets at amortized cost, due from related parties and some other assets. Financial liabilities consist of due to banks, loans, and other liabilities.

The fair value of financial instruments is not materially different from their carrying values.

**(38) RISK MANAGEMENT**

The Group manages financial risks through a systematic methodology and a comprehensive strategy to identify the sources, types of risks and the mechanism of measuring, analyzing and planning to mitigate and manage the risk by reducing the effect of such risks and the probability of occurrence through available hedging instruments.

Risk management represents a continuous process where the Group monitors risks and then handles the variances that exceed allowed limits.

In addition, the Group also ensures the compliance with laws and regulations that governs the Group's activities which is reflected in its policies and procedures.

Risk management function is performed by a specialized risk management and compliance measurement department, in addition to the existing supporting committees such as the internal investment committee as well as assets and liabilities committee.

**CREDIT RISK**

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss.

The Group performs necessary financial and credit analysis when acquiring any bonds for public or private shareholding companies or when granting loans. The Fund sets deposits ceiling for the local banks based on a defined methodology and the credit rating of the bank in addition to setting a ceiling for the volume of transactions with brokers based on a defined methodology.

(In Thousands of Jordanian Dinars)

#### OPERATING RISK

Operating risk is the risk that may arise during the execution of transactions and may be caused by internal factors related to employees, support services or information technology systems.

The Group issues policies and procedures to ensure proper execution of transactions in addition to providing the best information systems and specialized technical personnel and to develop plans to maintain business continuity under any emergency circumstances.

#### MARKET RISK

Market risk arises from fluctuations in the value of investment instruments, especially the fluctuations in stock prices and investment properties value, where the Group measures the risk through known statically measures (standard deviation, variance and covariance, coherence, beta, value at risk) and thus determines levels of acceptable risks based on approved strategic investment policy.

To mitigate the impact of such risks, especially in the absence of necessary hedging instruments, the Group increases the level of diversification in its portfolio and decreases the grade of correlation between the portfolio tools through proper sector distribution, and geographical distribution through approaching markets and investments less correlated.

#### INTEREST RATE RISK

Interest rate risk is the risk that results from changes in market value or future cash flows of financial instruments as a result of changes in interest rate.

The Group manages such risk through increasing or decreasing the recovery period of the investment instrument portfolio which is affected directly by interest rates such as deposits and bonds based on the Group's expectations of interest rate trends.

The Group performs analysis on the gaps of the investment instruments maturities and links it with the investment maturities and other liabilities which is performed by assets and liabilities committee, by allocating cash market management portfolio and bonds portfolio to fit its maturities with the Group's liabilities.

The sensitivity of the consolidated statement of revenues and expenses is affected by the assumed changes in interest rates on the Group's profit for one year, calculated for financial assets and financial liabilities with floating rates held at 31 December.

**SOCIAL SECURITY CORPORATION – SOCIAL SECURITY INVESTMENT FUND**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**31 DECEMBER 2018**

**(In Thousands of Jordanian Dinars)**

The following table demonstrates the sensitivity of the consolidated statement of revenues and expenses to reasonably possible changes in interest rate as of 31 December while all other variables are held constant:

**2018-**

<b>Currency</b>	<b>Increase in</b>	<b>Impact on surplus</b>	<b>Impact on</b>
	<b>interest rate</b>	<b>of revenues over</b>	<b>owners'</b>
	<b>%</b>	<b>expenses for the</b>	<b>equity</b>
		<b>year</b>	<b>JD</b>
		<b>JD</b>	
JD	1	67,165	67,165
USD	1	4,169	4,169

**2017-**

<b>Currency</b>	<b>Increase in</b>	<b>Impact on surplus</b>	<b>Impact on</b>
	<b>interest rate</b>	<b>of revenues over</b>	<b>owners'</b>
	<b>%</b>	<b>expenses for the</b>	<b>equity</b>
		<b>year</b>	<b>JD</b>
		<b>JD</b>	
JD	1	60,907	60,907
USD	1	742	742

The effect of the decrease in interest rates with the same percentage is expected to be equal and opposite to the effect of increase shown above.

**SHARE PRICE RISK**

This represents the risk resulting from changes in the fair value of investment in shares. The Group manages these risks by diversifying investments in several economic sectors and geographical areas. Investments in shares included within the consolidated financial statements are mainly listed in Amman Stock Exchange.

**31 DECEMBER 2018**

**(In Thousands of Jordanian Dinars)**

The following table demonstrates the sensitivity of the consolidated statement of revenues and expenses (financial assets at fair value through the consolidated statement of revenues and expenses) and fair value reserve (financial assets at fair value through the consolidated statement of other comprehensive income) as a result of reasonable changes in share prices, assuming that other variables held constant:

	Change in indicator	Effect on surplus of revenues over expenses for the year	Effect on Social Security Corporation equity
<b>2018-</b>	%		
<b>Indicator</b>			
Amman Stock Exchange	5	5,885	72,193
Palestine Stock Exchange	5	433	433
London Stock Exchange	5	-	3,077
		6,318	75,703
<b>2017-</b>			
<b>Indicator</b>			
Amman Stock Exchange	5	6,317	70,049
Palestine Stock Exchange	5	471	471
London Stock Exchange	5	-	2,166
		6,788	72,686

The effect of the decrease in share prices with the same percentage is expected to be equal and opposite to the effect of increases shown above.

**FOREIGN CURRENCY RISK**

Foreign currency risk is the risk that the value of a financial instrument will fluctuate due to the changes in foreign exchange rates. The Group's functional currency is the Jordanian Dinar, and US Dollar is considered as the base currency for foreign investments. Therefore, due to the fact that the Jordanian Dinar is fixed against the US Dollar, the Fund is not exposed to significant currencies risk in relation to the US Dollar. Furthermore, the Fund does not have any obligations in foreign currencies, accordingly, no hedging was performed against their obligations.

**SOCIAL SECURITY CORPORATION – SOCIAL SECURITY INVESTMENT FUND**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**31 DECEMBER 2018**

(In Thousands of Jordanian Dinars)

**LIQUIDITY RISK**

Liquidity risk is defined as the Group's inability to cover its obligations at their respective due dates. Since the Group does not have short term and middle term obligations, the liquidity is managed to provide the required funding for investing activities to balance the maturities of investment instruments and investment obligations.

The following table summarizes the maturities of assets, liabilities and equity:

2018-	Up to one month	One to three months	Three to six months	More than six months up to a one year	More than one year up to three years	More than three years	Without maturity	Total

	31 December	
	2018	2017
Less than 1 year	88	84
1 to 5 years	493	474
Over 5 years	31,325	31,431
	<u>31,906</u>	<u>31,989</u>

**(41) FAIR VALUE HIERARCHY**

The following table illustrates the fair value measurement hierarchy for financial instruments. The Group uses the following methods:

- Level (1): quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level (2): valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level (3): valuation techniques for which the lowest level input that is significant to the fair value measurement is not observable

**(42) LITIGATIONS**

**Social Security Investment Fund**

There are lawsuits against the Fund with an approximate amount of JD 345 thousand as at 31 December 2018 (2017: JD 325 thousand). Management and legal counsel believe that no obligations will arise from these lawsuits.

**Jordan Press Foundation – Al Rai – Subsidiary**

Jordan Press Foundation – Al Rai is a defendant in a lawsuit within the ordinary course of business amounting to JD 3,980 thousand as at 31 December 2018 (2017: JD 4,025 thousand). Management and legal counsel believe that no obligations shall arise from these lawsuits.

**Jordan Duty Free Shops – Subsidiary**

- a. There are labor lawsuits raised against Jordan Duty Free Company (a subsidiary) with an amount of JD 17 thousand. Management and legal counsel believe that the existing provision is sufficient against these lawsuits.
- b. There are lawsuits related to customs raised against the Company with an amount of JD 18 thousand. Management and legal counsel believe that no obligations will arise from these lawsuits.

**(In Thousands of Jordanian Dinars)**

**National Company for Tourism Development – Subsidiary**

There are lawsuits against the Company amounting to JD 14 thousand as at 31 December 2018 related to claims by lessees (2017: JD 18 thousand).

**Daman for Energy Investments – Subsidiary**

There are lawsuits against the Group related to its activities with a total amount of JD 507 thousand as at 31 December 2018 (2017: JD 666 thousand), Management and legal counsel believe that the current lawsuit provision amounting to JD 783 thousand recognized by the Group is sufficient at the date of the consolidated financial statements.

**The dispute of Irbid Electricity Company (a subsidiary) with National Electric Power Co NEPCO**

National Electric Power Company (the Group's energy supplier) demands JD 722 thousand, which represents a difference in delay interests. Management of the subsidiary and its legal advisor believe that the Company will not incur any obligations according to the electricity tariff (whole sale tariff) issued by the Energy and Minerals Regulatory Commission (EMRC) which is binding to both parties.

**AI Daman for Investments Public Shareholding Company – Subsidiary**

There were no lawsuits against the Company as at 31 December 2018 and 2017. The company's legal counsel believe that no obligations will arise from these lawsuits.

Lawsuits raised by the company against others amounted to JD 95 thousand as at 31 December 2018 (2017: JD 214 thousand).

**Crown Plaza Resort – Dead Sea – Fully Owned Hotel**

There are lawsuits raised against the resort amounting to JD 21 thousand as at 31 December 2018 (2017: JD 21 thousand), These lawsuits are still in their early stages; Management and legal counsel believe that no additional provisions should be recognized against these lawsuits.

**Intercontinental Resort – Aqaba - Fully Owned Hotel**

There are lawsuits raised against the resort amounting to JD 139 thousand as at 31 December 2018 (2017: JD 199 thousand) related to the resort activities. Risks related to these lawsuits and their probability of occurrence were analyzed despite the fact that the results cannot be identified accurately. Management and legal counsel believe that no obligations will arise from these lawsuits.

---

**Tax Position of the Group**

**Social Security Investment Fund**

The income tax provision for the year ended 31 December 2018 has been calculated in accordance with income tax law No. (34) of 2014. Management believes that the provision amounting to JD 468 thousand is sufficient and there is no need to recognize additional provision. Most of the Fund's activities are tax exempted in accordance with Income Tax Law.

The Fund submitted its tax declarations for the years 2017 and 2018. The Income and Sales Tax Department has not reviewed the records up to the date of the consolidated financial statements.

The Fund obtained a final income tax clearance with the Income and Sales Tax Department up to the year 2014.

**Irbid District Electricity Company public shareholding Company – subsidiary of Al Daman for Energy Investments**

The Company obtained a final tax clearance up to the year 2014. The Income and Sales Tax Department reviewed and audited the Company's records for the year 2015 up to the date of the consolidated financial statements. The Income and Sales Tax Department has found differences amounting to JD 112 thousand. The Company has objected and a lawsuit has been raised over the matter. In 2018, the Court of first instance appointed an expert to obtain an opinion regarding the objection. The opinion of the expert was in favor of the Company and a decision was issued by the court of first instance to accept the expert's report. The difference became 3 thousand and the financial decision has not yet been issued until the date of these consolidated financial statements.

**Electricity Distribution Company (public shareholding company) – subsidiary of Al Daman for Energy Investments**

The Company has obtained a final clearance from the Income and Sales Tax Department up to the year 2014. The Company submitted its tax declaration to the Income and Sales Tax Department for 2017 and 2016. The Income and Sales Tax Department has not reviewed their records up to the date these consolidated financial statement.

**Electricity Distribution Company – Aqaba**

The Company has obtained a final clearance until 2014 and the Company has submitted the tax declaration for 2017, 2016 and 2015. The Income and Sales Tax Department did not review the Company's accounting records for the years 2015, 2016 and 2017 until the date of these consolidated financial statements.

**SOCIAL SECURITY CORPORATION – SOCIAL SECURITY INVESTMENT FUND**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**31 DECEMBER 2018**

**(In Thousands of Jordanian Dinars)**

---

**Jordan Press Foundation / Al Rai – Subsidiary**

Income tax provision was not calculated for the two years ended 31 December 2018 and 2017 due to the excess of taxable expenses over taxable income in accordance with the Income Tax Law No. (34) Of 2014.

The Company submitted its tax declarations for the years 2015. The Income and Sales Tax Department did not issue its final report until the date of preparation of these consolidated financial statements.

The Company reached a final settlement with the Income and Sales Tax Department up to the year 2014.

**Jordan Duty Free (public shareholding company) – Subsidiary**

Income tax on other revenues for the years ended 31 December 2018 and 2017 has been calculated in accordance with Income Tax Law No. (34) Of 2014.

The Council of Ministers had resolved in its decision dated 10 April 2017 to extend the exemption of the company's profit from Income and Social Service Tax, sold within the main activity of the Company.

Income tax for the Company was settled up to the years 2004 to 2016.

Taxes on the Company were estimated at JD 481 thousand for the years 2008 and 2009. The Income and Sales Tax Department has subjected interest and other income to income tax. The Company objected to that decision and the Company's objection was rejected by the Income and Sales Tax Department. The Company filed a lawsuit against the Department at the Court of Instance. The case is in its final stage as it is filed for a final decision by the Taxation Court.

The Company submitted its tax declarations for the year 2017, and the Income and Sales Tax Department still has not reviewed those declarations up to the date of preparation of these consolidated financial statements.

The Company registered in the Income and Sales Tax Department with a retrospective effect starting 1 January 2014 to benefit from decision of the Council of Ministers to exempt the Company from penalties in the case the principle of tax amounts was paid in full.

---

**(In Thousands of Jordanian Dinars)**

**National Company for Touristic Development - Subsidiary**

The Company obtained a final tax clearance from the Income and Sales Tax Department up to the end of 2015.

The Company has submitted its tax declarations for the years 2017 and 2016 and the Income and Sales Tax Department still has not reviewed those declarations.

No provision for income tax was calculated for the years ended 31 December 2018 and 31 December 2017 due to the excess of deductible expenses over taxable revenues in accordance with Income Tax Law No (34) of 2014.

The Income and Sales Tax Department – Aqaba branch obtained final clearance from the Income and Sales Department up to the year 2015. The Company submitted its tax declarations for the years 2017 and 2016, the Income and Sales Tax Department has not received yet.

No provision for income tax was calculated for Aqaba Branch as it has not completed the registration as it needs a clearance up to the year 2017.

**Al-Daman for Investments – Subsidiary**

Income tax for the years ended 31 December 2018 and 2017 was not calculated due to the Company having accumulated losses in accordance with Income Tax Law No. (34) of 2014.

The Company obtained a final tax clearance from the Income and Sales Tax Department for the Company's activities in Amman up to the end of the year 2015. Tax declarations related to the Company's activities in Aqaba were submitted for the years 2015, 2016, and 2017. The Income and Sales Tax Department still has not yet reviewed those declarations until the consolidated financial statements preparation date. The Company's management did not recognize the deferred tax assets since it's not significant and believed not to benefit the Company in the near future.

**Rama for Investing and Saving Company – Subsidiary**

Income tax provision was calculated for the two years 2017 and 2018 in accordance with the Income Tax Law No. (34) Of 2014.

The Company has obtained the final clearance from the Income and Sales Tax Department up to 2016.

The Company submitted its records for the year 2017, and the Income and Sales Tax Department has not reviewed the Company's record up to the date of the consolidated financial statement.

**SOCIAL SECURITY CORPORATION – SOCIAL SECURITY INVESTMENT FUND**

---

**Al-Daman for Zone Development – Subsidiary**

The Company has calculated its income tax provision for the year ended 31 December 2018, and according to the Developing Zones Law No. (30) of 2014 the Company deducts 5% from its taxable income as income tax provision.

North Development Company and Mafraq developed has reached a settlement with the Income and Sales Tax Department until the end of 2015, the Company also submitted its tax records for the year 2017, and the Income and Sales Tax Department has not reviewed the Company's record up to the date of the consolidated financial statement.

The Company reached a final settlement with the Income and Sales Tax Department for the year ended 2016. The Company submitted its records to the Income and Sales Tax Department for the period since inception up to the year 2017.

**United Travelling Center – Subsidiary**

Income tax provision was not calculated for the years ended 31 December 2018 and 2017 due to a cumulative loss from previous years in accordance with the Income Tax Law No. (34) of 2014.

The Company has submitted its tax records up to the year 2015, and the Company obtained the final tax clearance with the Income and Sales Tax Department up until that year.

The Company submitted its income tax declarations for the years 2017 to 2016 within the legal time period, and the Income and Sales Tax Department has not reviewed the records up to the date of the financial statements.

**(44) STANDARDS ISSUED BUT NOT YET EFFECTIVE**

The standards and interpretations that are issued but not yet effective, up to the date of issuance of the Group's consolidated financial statements are disclosed below. The Group intends to adopt these standards, if applicable, when they become effective.

**IFRS 16 Leases**

During January 2016, the IASB issued IFRS 16 "Leases" which sets out the principles for the recognition, measurement, presentation and disclosure of leases.

IFRS 16 substantially carries forward the lessor accounting requirements in IAS 17. Accordingly, a lessor continues to classify its leases as operating leases or finance leases, and to account for those two types of leases differently.

IFRS 16 introduced a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. A lessee is required to recognize a right-of-use asset representing its right to use the underlying leased asset and a lease liability representing its obligation to make lease payments.

#### *Transition to IFRS 16*

The Company has the option to adopt IFRS 16 retrospectively and restate each prior reporting period presented or using the modified retrospective approach by applying the impact as an adjustment on the opening retained earnings. The Company will elect to apply the standard to contracts that were previously identified as leases applying IAS 17 and IFRIC 4.

The Group will adopt IFRS 16 using the modified retrospective approach.

The Group did not expect a material impact on the consolidated financial statement as a result of IFRS 16 implementation.

#### **IFRS 17 Insurance Contracts**

IFRS 17 provides a comprehensive model for insurance contracts covering the recognition and measurement and presentation and disclosure of insurance contracts and replaces IFRS 4 -Insurance Contracts. The standard applies to all types of insurance contracts (i.e. life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. The standard general model is supplemented by the variable fee approach and the premium allocation approach.

The new standard will be effective for annual periods beginning on or after 1 January 2021. Early application is permitted.

#### **IFRIC Interpretation 23 Uncertainty over Income Tax Treatment**

The Interpretation addresses the accounting for income taxes when tax treatments involve uncertainty that affects the application of IAS 12 and does not apply to taxes or levies outside the scope of IAS 12, nor does it specifically include requirements relating to interest and penalties associated with uncertain tax treatments. An entity must determine whether to consider each uncertain tax treatment separately or together with one or more other uncertain tax treatments. The interpretation is effective for annual reporting periods beginning on or after 1 January 2019, but certain transition reliefs are available.

(In Thousands of Jordanian Dinars)

**Amendments to IFRS 10 and IAS 28: Sale or Contribution of Assets between an Investor and Its Associate or Joint Venture**

The amendments address the conflict between IFRS 10 and IAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that the gain or loss resulting from the sale or contribution of assets that constitute a business, as defined in IFRS 3, between an investor and its associate or joint venture, is recognised in full. Any gain or loss resulting from the sale or contribution of assets that do not constitute a business, however, is recognised only to the extent of unrelated investors' interests in the associate or joint venture. The IASB has deferred the effective date of these amendments indefinitely, but an entity that early adopts the amendments must apply them prospectively. The Group will apply these amendments when they become effective.

**Amendments to IAS 19: Plan Amendment, Curtailment or Settlement**

The amendments to IAS 19 address the accounting when a plan amendment, curtailment or settlement occurs during a reporting period. The amendments also clarify that an entity first determines any past service cost, or a gain or loss on settlement, without considering the effect of the asset ceiling. This amount is recognised in profit or loss.

An entity then determines the effect of the asset ceiling after the plan amendment, curtailment or settlement. Any change in that effect, excluding amounts included in the net interest, is recognised in other comprehensive income.

The amendments apply to plan amendments, curtailments, or settlements occurring on or after the beginning of the first annual reporting period that begins on or after 1 January 2019, with early application permitted. These amendments will apply only to any future plan amendments, curtailments, or settlements of the Group.

**Amendments to IAS 28: Long-term interests in associates and joint ventures**

The amendments clarify that an entity applies IFRS 9 to long-term interests in an associate or joint venture to which the equity method is not applied but that, in substance, form part of the net investment in the associate or joint venture (long-term interests). This clarification is relevant because it implies that the expected credit loss model in IFRS 9 applies to such long-term interests.

The amendments also clarified that, in applying IFRS 9, an entity does not take account of any losses of the associate or joint venture, or any impairment losses on the net investment, recognised as adjustments to the net investment in the associate or joint venture that arise from applying IAS 28 Investments in Associates and Joint Ventures.

The amendments should be applied retrospectively and are effective from 1 January 2019, with early application permitted.

**(45) COMPARATIVE FIGURES**

Some of 2017 balances were reclassified to correspond with the 2018 presentation. The reclassification had no effect on the surplus of revenues over expenses and social security corporation equity for the year 2017.
